- 3.7 Trade and economic services will be financially ring fenced and tariffs and service charges will as far as possible be calculated in such a way that the revenue generated covers the cost of the services or generate a surplus.
- 3.8 The provision for operating capital and bad debt must be related to community and subsidised services and must not include any provisions in respect of trade and economic services.
- 3.9 The revenue basis of the municipality will be optimally protected by limiting the exemptions, rebates and reductions.
