If the driver of a municipal vehicle is involved in an accident, or has contributed to an accident, irrespective of the damage caused on vehicles or properties, such driver shall:

- 11.1 Stop the vehicle immediately, there is a legal and indeed a moral obligation to report a collision to the nearest police station, even if you hit a lamp stand or a stationary vehicle and the accident is not witnessed.
- 11.2 Check the nature and extent of any injury to another person.
- 11.3 If a person has been hurt, give help by administering first aid, (if you know how), summons the police and, if necessary, an ambulance.
- 11.4 Determine the nature and extent of any damage suffered.
- 11.5 If required to do so by any person entitled to such information, provide and obtain the following information:
  - Name, address, telephone and cell number of the other driver;
  - Name, address, telephone and cell number of the owner of the other vehicle;
  - Numbers of the other vehicle;
  - Names of the driver's/owner's insurance company/insurance broker;
  - Full details of the place and time of the collision and the road conditions and visibility at the time;
  - License number and its expiry date;
  - ID number

- 11.6 Make a short note (to jog your memory) of what occurred immediately before and at the time of the collision (including a description of what happened, the speed at which the vehicles were travelling, whether the lights were on or off, whether the other driver was indicating etc).
- 11.7 If there is a camera at the time of the collision, take photographs of the scene of the collision from various angles. If not, it is always a good idea to return to the scene as soon as possible thereafter, to take the necessary photographs.
- 11.8 Measure distances from the point of the collision to identifiable landmarks such as traffic lights, lamp stands, stop signs and the like and make a rough sketch showing the position of the vehicles immediately before and after the collision.
- 11.9 If there are people involved and eyewitnesses, take down their full names, addresses, telephone and cell numbers.
- 11.10 Do not admit liability for the collision, whether to the driver of the other car, a bystander or to the Police, as this may prejudice any claim that you may have either against the other driver or in respect of your policy insurance. Do not make any statement, or comment on the cause of the accident or get involved in an argument with anyone regarding the accident. On the other hand, if the other driver apologizes for the collision and admits liability, do not hesitate to have him sign a written admission of liability there and then and, if possible, have that statement witnessed. On the other hand, if he/she is not prepared to commit his apology to writing, endeavour to persuade him/her to make his/her admission in the presence of a responsible official, such as a police officer.
- 11.11 If a person or animal has been injured, do not move the vehicle, even if it obstructs the traffic until you are given permission to do so by a traffic officer or unless the vehicle completely obstructs the road. However, if you do move the vehicle, it is important to chalk out its position before doing so. On the other hand, if no one has been injured, it would be important to move the vehicles out of the road to prevent a further collision with oncoming traffic. Where the vehicle is perceived to be obstructing the traffic, place hazard triangle 25 meters ahead or behind the vehicle to warn other road users and switch on the hazard lights.
- 11.12 Confirm telephonically with the Head of Department or Fleet Management Officer for arranging to remove the municipality's vehicle from the scene of the accident by a tow-in-service, should the vehicle be in such a condition that it cannot be driven.
- 11.13 If there is a traffic officer at the scene of the collision, provide him with such information as he/she may require. The accident must be reported within 24 hours to the police station or at an authorized office of a traffic officer (unless you are injured and cannot do so timeously, in which event you must report the accident as soon as is reasonably practicable) and obtain a reference/case number. When reporting the accident, give

only the bare essentials and do not commit yourself to a written statement before consulting your insurance company or attorney.

- 11.14 Do not take any alcohol or drugs after the accident.

- 12.1 In the event of a vehicle breakdown the driver must first attempt to move the vehicle to a safe place where it is not likely to be safety hazard to other road users. If the vehicle cannot be moved, the driver must make every effort to reduce the possibility of causing a safety hazard to other road users by placing the hazard triangle 25 meters ahead or behind the vehicle and in such a position as to warn other road users. The hazard lights must be switched on and hand signals be used where possible.
- 12.2 If the driver has to leave the vehicle to summons assistance, he/she shall make every effort to secure the vehicle and its load. Emergency help should be obtained from the nearest available source.
- 12.3 If there is no immediate need for emergency assistance the driver must contact his/her Head of Department or the Fleet Management Officer.

No council vehicle should be allowed on the road unless it is adequately insured.
- 16.2 If a driver is found to be negligent during the time the accident happened, or to have committed any forbidden act, he/she may be held

liable to pay the excess costs or the total cost of the damage, depending on the seriousness of the action or be charged with negligent use of Council property.

## **17. ECONOMIC LIFE ASSESSMENTS AND DISPOSAL**

- 17.1 Economic life assessments should be performed in order to determine the economic service life expectancy of vehicles and plant under their specific operating conditions. The re-sale and trade-in values should also be taken into consideration as well as the ever-increasing new vehicle and plant costs.
